

VENKATA SAI PALEPU

Bengaluru, India | +91 7095235396 | venkatsaip55@gmail.com

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building **AI-driven data platforms** using Databricks, AWS, and SQL. Specialized in designing **Medallion Architecture pipelines** and integrating **AI agents for natural language-based data access**. Strong focus on scalable ETL systems and intelligent analytics solutions.

TECHNICAL SKILLS

Core: Databricks, PySpark, SQL, AWS (S3, Athena, Glue, Lambda)

Data Engineering: Delta Lake, Medallion Architecture, ETL/ELT, Apache Airflow

AI & Integration: AWS Bedrock, AI Agents, REST APIs

Databases: PostgreSQL, MySQL, SQL Server, Amazon Athena

Visualization: Tableau, Power BI

Tools: Docker, GitHub Actions, Linux, Jira, Confluence

PROFESSIONAL EXPERIENCE

Data Engineer – Idexcel | Bengaluru | Oct 2024 – Present

- Built scalable ETL pipelines processing **10M+ records** using AWS (Lambda, Glue, S3, Athena)
- Designed and implemented **Medallion Architecture (Bronze–Silver–Gold)** in Databricks
- Developed **SQL-based data layer in Athena** for analytics and AI-driven applications
- Created and managed **Athena tables** for downstream consumption and reporting
- Developed **AI-powered data agents (AWS Bedrock & Data Genie)** enabling natural language data access
- Built and exposed **REST API endpoints** to integrate AI agents into applications
- Orchestrated workflows using **Apache Airflow and Databricks Jobs**
- Delivered **analytics dashboards using Tableau/Superset** on top of Athena data layer for business insights
- Developed and integrated a **Tableau AI Extension** enabling natural language-driven data exploration within dashboards

- Integrated backend APIs to process user queries and deliver **context-aware insights within Tableau dashboards**
- Reduced manual data querying effort by enabling **self-service analytics through AI-driven interfaces**

Data Analyst Intern – AI Variant | Aug 2023 – Jan 2024

- Developed dashboards using **Power BI, Tableau, and Excel**
- Wrote SQL queries for data extraction and transformation
- Performed data cleaning and analysis using Python

PROJECTS

AI-Powered Data Platform (Databricks + Athena + AI Agent)

- Built **Medallion Architecture pipelines** and analytics-ready data layer in Athena
- Developed AI agent enabling **natural language querying of enterprise data**
- Integrated solution with applications via **REST APIs for real-time insights**

AssessIQ – Certification Quiz Platform

- Built web application using **Flask and PostgreSQL**
- Implemented real-time scoring and performance tracking
- Developed frontend using HTML, CSS, and JavaScript

EDUCATION

B.E. Computer Science – N.B.K.R Institute of Science & Technology (2019–2023) | GPA: 7.85

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- IBM Data Visualization Certification
- Data Analytics Training – ExcelR

ACHIEVEMENTS

- 2× Spot Award & Quarterly Award – Idexcel
- First Prize – Data Analytics Competition (CSI 2022)
- Prathibha Award for SSC Merit (2018)
